## Technology + Precision = Craftsmanship

With 30 years under our belt, we've earned a reputation for superior craftsmanship. Being a one-stop shop and fabricators of natural stone, engineered stone, ceramic, laminate and acrylic surfaces, we deliver affordable, efficient and exceptional benchtops every time.

We extensively train our CNC operators and stonemasons in-house to be highly skilled so we know each and every member of our team buy into GFL's standard of excellence, ensuring only the best results for your space.

# 5

## Working Day Turnaround

We know time is important to you, so we've refined our process to deliver and uphold our quality on an exceptional timeline – in 5 working days.

**When we pair our automated processing with our state-of-the-art CNC machinery and talented stonemasons, your personalised benchtop is crafted precisely and efficiently to ensure you get a beautiful work surface every time.**

## What's trending for surfaces in 2020

2020 brings with it exciting new colours, textures and technologies for our kitchens.

### **Warm, chalky pastels**

The beginning of the season sees a fresh palette of warm, chalky pastels coming to our homes, including sage greens, pale blues and a variety of wood grains. These hues are so versatile in the kitchen and can be coordinated with a range of benchtop colours from crisp whites to light concrete greys and stand out when paired with a vein detail top.

### **Benchtop finishes**

Benchtop finishes range from the ever-popular polished to suede and leathered with honed surfaces making more of an appearance. Dark and dramatic still feature, with

white benchtops including vein detail still high up in the rankings.

Grey may just be the new black with many options available from soft, warm greys to concrete ranges, right through to darker shades of charcoal grey.

### **Clean lines & integrated appliances**

Clean lines, minimalist design and strong forms are what we can expect to see more of this year. We're seeing integrated appliances, doors that cover work surfaces and smaller storage spaces to give a seamless flow in our 2020 kitchens.

### **Induction cooking in work surfaces**

Revolutionary benchtop technology is now underway which enables induction cooking directly onto the work surface! Stay tuned in our next newsletter for more details on this clever innovation.

## From Italy with love

**AtlasPlan direct from Italy – Available exclusively through GFL Benchtops!**

AtlasPlan's beautiful, large-format porcelain stoneware is now available in New Zealand, exclusively through us here at GFL Benchtops. This exciting new product is extremely versatile – not only is it durable enough for both indoor and outdoor spaces, but its compact nature ensures it's extremely hygienic and resistant to high temperatures, meaning pots and pans can be placed directly on top.

AtlasPlan offers a stunning selection of colours incorporating a variety of looks ranging from marble to stone and concrete with a combination of matt, silk and gloss finishes. Plus, the entire range of 3200 x 1600 x 12mm jumbo sized slabs are all one price! It doesn't get any easier than that when selecting your next beautiful benchtop surface.

**Contact us to receive your samples of the AtlasPlan range today.**
